PAYMENT POLICY SUMMARY:

Commonwealth Care Alliance © (CCA) reimburses medically necessary Chiropractic Manipulative Treatment (CMT). CMT is defined by AMA CPT as a form of manual treatment to influence joint and neurophysical function. CMT is performed for treatment of misalignments, subluxations, or segmental joint dysfunction.

REIMBURSEMENT REQUIREMENTS:

CCA will reimburse medically necessary CMT services until the maximum therapeutic benefit has been achieved.

CCA does not cover spinal manipulation services for the treatment of non-musculoskeletal disorders including but not limited to Rheumatoid Arthritis, Muscular Dystrophy, Multiple Sclerosis, Pneumonia, and Emphysema.

Spinal manipulation for the treatment of chronic conditions or for maintenance care without objectively measurable improvement is considered not medically necessary and not covered.

CMT services are payable to Chiropractors as well as Community Health Centers when the services are provided by a CHC employed Chiropractor or contracted Chiropractor.

Radiology services are reimbursed when the services are needed to confirm neuromusculoskeletal conditions that require treatment.

PRIOR AUTHORIZATION/REFERRAL REQUIREMENTS:

Authorization is required after 36 CMT visits. For more information, please see the Provider Manual Section 4: Covered Services & Prior Authorization Requirements.
BILLING AND CODING GUIDELINES:

CCA will use current industry standard procedure codes throughout their processing systems. The Health Insurance Portability & Accountability Act (HIPAA) Transaction and Code Set Rule requires providers to use the code(s) that are valid at the time the service is provided. Providers must only use industry standard code sets and must use specific HCPCS and CPT codes when available.

CCA reimburses for the Chiropractic procedure codes as below:
