One Care Plan | 2021 *List of Covered Drugs* (Formulary)

Introduction

This document is called the *List of Covered Drugs* (also known as the Drug List). It tells you which prescription drugs, over-the-counter drugs and items are covered by Commonwealth Care Alliance. The Drug List also tells you if there are any special rules or restrictions on any drugs covered by One Care. Key terms and their definitions appear in the last chapter of the *Member Handbook*.

B. Frequently Asked Questions (FAQ)

Find answers here to questions you have about this List of Covered Drugs. You can read all of the FAQ to learn more, or look for a question and answer.

B1. What prescription drugs are on the *List of Covered Drugs*? (We call the *List of Covered Drugs* the "Drug List" for short.)

The drugs on the List of Covered Drugs that starts on page 15 are the drugs covered by Commonwealth Care Alliance's One Care. These drugs are available at pharmacies within our network. A pharmacy is in our network if we have an agreement with them to work with us and provide you services. We refer to these pharmacies as "network pharmacies."

- Commonwealth Care Alliance will cover all drugs on the Drug List if:
  - your doctor or other prescriber says you need them to get better or stay healthy,
  - Commonwealth Care Alliance agrees that the drug is medically necessary for you, **and**
  - you fill the prescription at a Commonwealth Care Alliance network pharmacy.
- In some cases, you have to do something before you can get a drug (see question B4 below).

You can also see an up-to-date list of drugs that we cover on our website at commonwealthonecare.org or call Member Services at 1-866-610-2273 (TTY: call MassRelay at 711).

B2. Does the Drug List ever change?

Yes, and Commonwealth Care Alliance must follow Medicare and MassHealth rules when making changes.

We may add or remove drugs on the Drug List during the year.

We may also change our rules about drugs. For example, we could:

- Decide to require or not require prior approval for a drug. (Prior approval is permission from Commonwealth Care Alliance before you can get a drug.)
- Add or change the amount of a drug you can get (called quantity limits).
- Add or change step therapy restrictions on a drug. (Step therapy means you must try one drug before we will cover another drug.)

For more information on these drug rules, see question B4.

If you are taking a drug that was covered at the **beginning** of the year, we will generally not remove or change coverage of that **drug during the rest of the year** unless:

- a new, cheaper drug comes on the market that works as well as a drug on the Drug List now, **or**
- we learn that drug is not safe, **or**
- a drug is removed from the market.

Questions B3 and B6 below have more information on what happens when the Drug List changes.

- You can always check Commonwealth Care Alliance's up to date Drug List online at www.commonwealthonecare.org.
- You can also call Member Services to check the current Drug List at 1-866-610- 2273 (TTY: call MassRelay at 711).

B3. What happens when there is a change to the Drug List?

Some changes to the Drug List will happen **immediately**. For example:

- **A new generic drug becomes available**. Sometimes, a new generic drug comes on the market that works as well as a brand name drug on the Drug List now. When that happens, we may remove the brand name drug and add the new generic drug, but there will still be no cost to you for the new drug.

- When we add the new generic drug, we may also decide to keep the brand name drug on the list but change its coverage rules or limits.

    - We may not tell you before we make this change, but we will send you information about the specific change we made once it happens.

    - You or your provider can ask for an exception from these changes. We will send you a notice with the steps you can take to ask for an exception. Please see question B10 for more information on exceptions

- **A drug is taken off the market.** If the Food and Drug Administration (FDA) says a drug you are taking is not safe or the drug's manufacturer takes a drug off the market, we will take it off the Drug List. If you are taking the drug, we will let you know.

    - If you are notified that a drug you are taking is taken off the market follow one of the below steps.
        - Speak with you CCA care partner **or**
        - Immediately contact your prescriber to seek analternative prescription.

We may make other changes that affect the drugs you take. We will tell you in advance about these other changes to the Drug List. These changes might happen if:

- The FDA provides new guidance or there are new clinical guidelines about a drug.
- We add a generic drug **and**
    - Replace a brand name drug currently on the Drug List **or**
    - Change the coverage rules or limits for the brand name drug.

When these changes happen, we will

- Tell you at least 30 days before we make the change to the Drug List **or**
- Let you know and give you a 31 day supply of the drug after you ask for a refill.

This will give you time to talk to your doctor or other prescriber. They can help you decide:

- If there is a similar drug on the Drug List you can take instead or
- Whether to ask for an exception from these changes. Please see question B10 for more information about exceptions.

B4. Are there any restrictions or limits on drug coverage or any required actions to take to get certain drugs?

Yes, some drugs have coverage rules or have limits on the amount you can get. In some cases, you or your doctor or other prescriber must do something before you can get the drug. For example:

- Prior authorization (or prior approval): For some drugs, you or your doctor or other prescriber must get approval from Commonwealth Care Alliance before you fill your prescription. Commonwealth Care Alliance may not cover the drug if you do not get approval.
- Quantity limits: Sometimes Commonwealth Care Alliance limits the amount of a drug you can get.
- Step therapy: Sometimes Commonwealth Care Alliance requires you to do step therapy. This means you will have to try drugs in a certain order for your medical condition. You might have to try one drug before we will cover another drug. If your doctor thinks the first drug doesn't work for you, then we will cover the second.

Effective January 1, 2020, Commonwealth Care Alliance will limit coverage of blood glucose meters and test strips to the following Abbott Diabetes Care products:

- FreeStyle Lite® Meter
- FreeStyle Freedom Lite® Meter
- Freestyle Precision Xtra® Meter
- Freestyle Precision Xtra® Blood Glucose Test Strips

- FreeStyle Lite® Blood Glucose Test Strips *compatible with either Lite Meter*

Effective January 17, 2020 CCA members will be able to obtain certain Continuous Glucose Monitoring (CGM) systems at network pharmacies with a valid prescription. CCA will cover the following CGM's with an approved prior authorization.

- Freestyle Libre®
- Dexcom G6®

You can find out if your drug has any additional requirements or limits by looking in the tables beginning on page 15. You can also get more information by visiting our website at www.commonwealthonecare.org. We have posted online documents that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy.

You can ask for an exception from these limits. This will give you time to talk to your doctor or other prescriber. They can help you decide if there is a similar drug on the Drug List you can take instead or whether to ask for an exception. Please see questions B10-B12 for more information about exceptions.

B5. How will you know if the drug you want has limits or if there are required actions to take to get the drug?

The *List of Covered Drugs* on page 15 has a column labeled "Necessary actions, restrictions, or limits on use."

B6. What happens if we change our rules about some drugs (for example, prior authorization (approval), quantity limits, and/or step therapy restrictions)?

In some cases, we will tell you in advance if we add or change prior authorization, quantity limits, and/or step therapy restrictions on a drug. See question B3 for more information about this advance notice and situations where we may not be able to tell you in advance when our rules about drugs on the Drug List change.

B7. How can you find a drug on the Drug List?

There are two ways to find a drug:

- You can search alphabetically, **or**
- You can search by medical condition.

To search **alphabetically**, go to the Index of Covered Drugs section. You can find it on page 139. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

To search **by medical condition**, find the section labeled “List of drugs by medical condition” on page 15. The drugs in this section are grouped into categories depending on the type of medical conditions they are used to treat. For example, if you have a heart condition, you should look in the category, Cardiovascular Agents. That is where you will find drugs that treat heart conditions.

B8. What if the drug you want to take is not on the Drug List?

If you don’t see your drug on the Drug List, call Member Services at 1-866-610-2273 (TTY: call MassRelay at 711) and ask about it. If you learn that Commonwealth Care Alliance will not cover the drug, you can do one of these things:

- Ask Member Services for a list of drugs like the one you want to take. Then show the list to your doctor or other prescriber. They can prescribe a drug on the Drug List that is like the one you want to take Or
- You can ask the health plan to make an exception to cover your drug. Please see questions B10-B12 for more information about exceptions.

B9. What if you are a new Commonwealth Care Alliance member and can’t find your drug on the Drug List or have a problem getting your drug?

We can help. We may cover a temporary 31-day supply of your drug during the first 90 days you are a member of Commonwealth Care Alliance. This will give you time to talk to your doctor or other prescriber. They can help you decide if there is a similar drug on the Drug List you can take instead or whether to ask for an exception.

If your prescription is written for fewer days, we will allow multiple refills to provide up to a maximum of 31 days of medication.

We will cover a 31-day supply of your drug if:

- you are taking a drug that is not on our Drug List, or
- health plan rules do not let you get the amount ordered by your prescriber, or
- the drug requires prior approval by Commonwealth Care Alliance, or
- you are taking a drug that is part of a step therapy restriction.

If you are taking a drug that Commonwealth Care Alliance does not consider to be a Part D drug, you have the right to get a one-time, 72-hour supply of the drug. You can find more information about getting a temporary supply of a drug in Chapter 5 of your Member Handbook.

If you are in a nursing home or other long-term care facility and need a drug that is not on the Drug List or if you cannot easily get the drug you need, we can help. If you have been in the plan for more than 90 days, live in a long-term care facility, and need a supply right away:

- We will cover one 31-day supply of the drug you need (unless you have a prescription for fewer days), whether or not you are a new Commonwealth Care Alliance member.
- This is in addition to the temporary supply during the first 90 days you are a member of Commonwealth Care Alliance

For current enrollees with level-of-care changes, we will provide an emergency supply of at least 31 days (unless the prescription is written for fewer days) for all non-formulary medications including those that may have step therapy or prior authorization requirements. An unplanned level of care transition could be any of the following:

- a discharge or admission to a Long Term Care facility
- a discharge or admission to a hospital, or
- a nursing facility skilled level change

B10. Can you ask for an exception to cover your drug?

Yes. You can ask Commonwealth Care Alliance to make an exception to cover a drug that is not on the Drug List.

You can also ask us to change the rules on your drug.

- For example, Commonwealth Care Alliance may limit the amount of a drug we will cover. If your drug has a limit, you can ask us to change the limit and cover more.
- Other examples: You can ask us to drop step therapy restrictions or prior authorization requirements.

B11. How can you ask for an exception?

To ask for an exception, call your Care Partner or Member Services. Your Care Partner or a Member Services representative will work with you and your provider to help you ask for an exception. You can also read Chapter 9, of the *Member Handbook* to learn more about exceptions.

B12. How long does it take to get an exception?

First, we must get a statement from your prescriber supporting your request for an exception. After we get the statement, we will give you a decision on your exception request within 72 hours.

If you or your prescriber think your health may be harmed if you have to wait 72 hours for a decision, you can ask for an expedited exception. This is a faster decision. If your prescriber supports your request, we

will give you a decision within 24 hours of getting your prescriber's supporting statement.

B13. What are generic drugs?

Generic drugs are made up of the same active ingredients as brand name drugs. They usually cost less than the brand name drug and usually don't have well-known names. Generic drugs are approved by the Food and Drug Administration (FDA).

Commonwealth Care Alliance covers both brand name drugs and generic drugs.

B14. What are OTC drugs?

OTC stands for "over-the-counter". Commonwealth Care Alliance covers some OTC drugs when they are written as prescriptions by your provider.
You can read the Commonwealth Care Alliance Drug List to see what OTC drugs are covered.

B15. Does Commonwealth Care Alliance cover non-drug OTC products?

Commonwealth Care Alliance covers some non-drug OTC products when they are written as prescriptions by your provider.
Examples of non-drug OTC products include diabetic supplies.

You can read the Commonwealth Care Alliance Drug List to see what non-drug OTC products are covered.

B16. Does Commonwealth Care Alliance cover long-term supplies of prescriptions?

- **Mail-Order Programs.** We offer a mail-order program that allows you to get up to a 90- day supply of your prescription drugs sent directly to your home. Maintenance drugs are prescription drugs that you use on an ongoing basis, for a chronic or long term medical condition. There is no copay for mail order drugs.

- **90-Day Retail Pharmacy Programs.** Some retail pharmacies may also offer up to a 90- day supply of covered prescription drugs. A 90-day supply has the same copay as a one-month supply.

B17. Can you get prescriptions delivered to your home from your local pharmacy?

Your local pharmacy may be able to deliver your prescription to your home. You can call your pharmacy to find out if they offer home delivery.

B18. What is your copay?

Commonwealth Care Alliance's members have no copays for prescription and OTC drugs as long as the member follows the plan's rules.

B19. What are drug tiers?

Tiers are groups of drugs on our Drug List.

Every drug on the plan's Drug List is one of five tiers.

- Tier 1 drugs are Preferred Generic
- Tier 2 drugs are Generic
- Tier 3 drugs are Preferred Brand/Specialty
- Tier 4 drugs are Non-Preferred Brands
- Tier 5 drugs are Non-Medicare Rx/OTC

All five tiers consist of both part D drugs and non-Medicare covered drugs, and /or non- Medicare covered OTC drugs.

All tiers have no copay. As a member of our plan, you pay nothing for all covered drugs no matter what tier they are in.

C. *List of Covered Drugs*

The following list of covered drugs gives you information about the drugs covered by Commonwealth Care Alliance. If you have trouble finding your drug in the list, turn to the Index of Covered Drugs that begins on page 139. The index alphabetically lists all drugs covered by Commonwealth Care Alliance.

The first column of the chart lists the name of the drug. Brand name drugs are capitalized (e.g., MYRBETRIQ) and generic drugs are listed in lower-case italics (e.g., *cephalexin*).

The information in the "Necessary actions, restrictions, or limits on use" column tells you if Commonwealth Care Alliance has any rules for covering your drug.

Note: The DP next to a drug means the drug is not a "Part D drug." The amount you pay when you fill a prescription for this drug does not count towards your total drug costs (that is, the amount you pay does not help you qualify for catastrophic coverage).

- In addition, if you are getting Extra Help to pay for your prescriptions, you will not get any Extra Help to pay for these drugs. For more information on Extra Help, please see the call-out box

> **Extra Help** is a Medicare program that helps people with limited incomes and resources reduce Medicare Part D prescription drug costs, such as premiums, deductibles, and copays. Extra Help is also called the "Low-Income Subsidy," or "LIS."

- These drugs have different rules for appeals. An appeal is a formal way of asking us to review a decision we made about your coverage and to change it if you think we made a mistake. For example, we might decide that a drug that you want is not covered or is no longer covered by Medicare or MassHealth.

- If you or your doctor disagrees with our decision, you can appeal.

- If you ever have a question, call Member Services at 1-866-610-2273 (TTY: call MassRelay at 711). You can also read Chapter 9 of the *Member Handbook* to learn how to appeal a decision.

List of Abbreviations

Dual Demonstration Plan (DP): This item is covered under your MassHealth benefits. The DP next to a drug means the drug is not a "Part D drug." The amount you pay when you fill a prescription for this drug does not count towards your total drug costs (that is, the amount you pay does not help you qualify for catastrophic coverage). These drugs also have different rules for appeals. An appeal is a formal way of asking us to review a decision we made about your coverage and to change it if you think we made a mistake. For example, we might decide that a drug you want is not covered or is no longer covered by Medicare or MassHealth. If you or your doctor disagrees with our decision, you can appeal. If you ever have a question, call Member Services. You can also read the Member Handbook to learn how to appeal a decision.

Limited Distribution (LD): Limited Availability. The symbol [LD] next to a drug name indicates that the drug has been noted as being restricted to certain pharmacies by the Food and Drug Administration. These drugs can only be obtained at specialty designated pharmacies able to appropriately handle the drugs.

Non-Extended Day Supply (NDS): You may be able to receive greater than a 1-month supply of most of the drugs on your Formulary via retail or mail order. Drugs noted with "NDS" are limited to a 1-month supply for both Retail and Mail Order

Prior Authorization (PA): Commonwealth Care Alliance (CCA) requires a provider to submit a request for coverage based on a member's medical need for a particular drug. This means that you will need to get approval from CCA before you fill your prescription(s). If you don't get approval, CCA may not cover the drug.

Prior Authorization Restriction for Part B vs Part D Determination (B/D): This drug may be eligible for payment under Medicare Part B or Medicare Part D. You [or your physician] are required to get prior authorization from Commonwealth Care Alliance (CCA) to determine that this drug is covered under Medicare Part D before you fill your prescription for this drug. Without prior approval, CCA may not cover this drug.

Prior Authorization Restriction for New Starts Only (PA_NSO): If this drug is new to the member, you [or your physician] are required to get prior authorization from CCA before you fill your prescription for this drug. Without prior approval, CCA may not cover this drug.

Quantity Limits (QL): For certain drugs, Commonwealth Care Alliance (CCA) limits the amount of the drug that it will cover due to potential safety and utilization concerns. Due to these concerns, CCA has placed dispensing limits on some drugs. This means that only a certain quantity of drug can be dispensed by the pharmacy within a given time period. This could include a: per fill, daily, monthly, or yearly limitation. These quantities are based on standards of care from organizations such as the Food and Drug Administration.

Step Therapy (ST): In some cases, Commonwealth Care Alliance (CCA) requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if

Drug A and Drug B both treat your medical condition, CCA may not cover Drug B unless you try Drug A first. If Drug A does not work for you, CCA will then cover Drug B.

Step Therapy for New Starts Only (ST_NSO): If a drug is new to the member, you are required to first try certain drugs to treat your medical condition before we will cover another drug for that condition.

List of Drugs by Medical Condition

The drugs in this section are grouped into categories depending on the type of medical conditions they are used to treat. For example, if you have a heart condition, you should look in the category, "Cardiovascular Agents". That is where you will find drugs that treat heart conditions.
