(PPO)

## 2023 List of Covered Drugs (Formulary)

**PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION ABOUT THE DRUGS WE COVER IN THIS PLAN**

This formulary was updated on 06/01/2023. For more recent information or other questions, contact CCA Medicare Value Member Services at 866-610-2273 (TTY 711), 8 am to 8 pm, 7 days a week, from October 1 to March 31. (April 1 to September 30: 8 am to 8 pm, Monday to Friday, and 8 am to 6 pm, Saturday and Sunday.) Or visit [ccama.org](https://ccama.org).

**Important Message About What You Pay for Vaccines:** Our plan covers most Part D vaccines at no cost to you, even if you haven't paid your deductible. Call Member Services for more information.

**Important Message About What You Pay for Insulin:** You won't pay more than \$35 for a one-month supply of each insulin product covered by our plan, no matter what cost-sharing tier it's on, even if you haven't paid your deductible.

# CCA Medicare Value (PPO) |

## 2023 List of Covered Drugs (Formulary)

**Note to existing members:** This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

CCA Medicare Value (PPO) is a health plan with a Medicare contract. Enrollment depends on contract renewal.

When this drug list (formulary) refers to “we,” “us”, or “our,” it means Commonwealth Care Alliance Massachusetts, LLC. When it refers to “plan” or “our plan,” it means 2023 CCA Medicare Value.

In the Commonwealth of Massachusetts, Commonwealth Care Alliance Massachusetts, LLC does business as Commonwealth Care Alliance Massachusetts (CCA).

This document includes a list of the drugs (formulary) for our plan which is current as of 06/01/2023. For an updated formulary, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can always find an up-to-date CCA Medicare Value **List of Covered Drugs** online at [www.ccama.org](http://www.ccama.org) or by calling 866-610-2273 (TTY 711).

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1, 2023, and from time to time during the year.

ATENCIÓN: Si habla español, tiene a su disposición servicios gratuitos de asistencia lingüística. Llame al 866-610-2273 (TTY 711), de 8 am a 8 pm, los 7 días de la semana, del 1 de octubre al 31 de marzo. (Del 1 de abril al 30 de septiembre: de 8 am a 8 pm, de lunes a viernes, y de 8 am a 6 pm, sábado y domingo). La llamada es gratuita.

You can get this document for free in other formats, such as large print, braille, or audio. Call 866-610-2273 (TTY 711), 8 am to 8 pm, 7 days a week, from October 1 to March 31. (April 1 to September 30: 8 am to 8 pm, Monday to Friday, and 8 am to 6 pm, Saturday and Sunday.) The call is free.

We will keep your request for alternative formats and special language on file for future mailings. Please contact Member Services to change your request for a Value language and/or format.

Complaint forms are available at [www.hhs.gov/ocr/office/file/index.html](http://www.hhs.gov/ocr/office/file/index.html)

## What is the CCA Medicare Value Formulary?

A formulary is a list of covered drugs selected by CCA Medicare Value in consultation with a team of healthcare providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. CCA Medicare Value will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a CCA Medicare Value network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your Evidence of Coverage.

For a complete listing of all prescription drugs covered by CCA Medicare Value, please visit our website, or call us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

## Can the Formulary (drug list) change?

Most changes in drug coverage happen on January 1, but CCA Medicare Value may add or remove drugs on the Drug List during the year, move them to different cost-sharing tiers, or add new restrictions. We must follow the Medicare rules in making these changes.

**Changes that can affect you this year:** In the below cases, you will be affected by coverage changes during the year:

- **New generic drugs.** We may immediately remove a brand-name drug on our Drug List if we are replacing it with a new generic drug that will appear on the same or lower cost-sharing tier and with the same or fewer restrictions. Also, when adding the new generic drug, we may decide to keep the brand-name drug on our Drug List, but immediately move it to a different cost-sharing tier or add new restrictions. If you are currently taking that brand-name drug, we may not tell you in advance before we make that change, but we will later provide you with information about the specific change(s) we have made.
  - If we make such a change, you or your prescriber can ask us to make an exception and continue to cover the brand-name drug for you. The notice we provide you will also include information on how to request an exception, and you can find information in the section below titled “How do I request an exception to the CCA Medicare Value Formulary?”
- **Drugs removed from the market.** If the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug’s manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug.

- **Other changes.** We may make other changes that affect members currently taking a drug. For instance, we may add a generic drug that is not new to the market to replace a brand-name drug currently on the formulary or add new restrictions to the brand-name drug or move it to a different cost-sharing tier or both. Or we may make changes based on new clinical guidelines. If we remove drugs from our formulary, or add prior authorization, quantity limits and/or step therapy restrictions on a drug or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 30 days before the change becomes effective, or at the time the member requests a refill of the drug, at which time the member will receive a 31-day supply of the drug.
  - If we make these other changes, you or your prescriber can ask us to make an exception and continue to cover the brand-name drug for you. The notice we provide you will also include information on how to request an exception, and you can also find information in the section below entitled “How do I request an exception to the CCA Medicare Value Formulary?”

**Changes that will not affect you if you are currently taking the drug.** Generally, if you are taking a drug on our 2023 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2023 coverage year except as described above. This means these drugs will remain available at the same cost-sharing and with no new restrictions for those members taking them for the remainder of the coverage year. You will not get direct notice this year about changes that do not affect you. However, on January 1 of the next year, such changes would affect you, and it is important to check the Drug List for the new benefit year for any changes to drugs.

The enclosed formulary is current as of 06/01/2023. To get updated information about the drugs covered by CCA Medicare Value, please contact us. Our contact information appears on the front and back cover pages.

## **How do I use the Formulary?**

There are two ways to find your drug within the formulary:

### **Medical Condition**

The formulary begins on page 1. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, Cardiovascular agents. If you know what your drug is used for, look for the category name in the list that begins on page 1. Then look under the category name for your drug.

## **Alphabetical Listing**

If you are not sure what category to look under, you should look for your drug in the Index that begins on page 110. The Index provides an alphabetical list of all of the drugs included in this document. Both brand-name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

## **What are generic drugs?**

CCA Medicare Value covers both brand-name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand-name drug. Generally, generic drugs cost less than brand-name drugs.

## **Are there any restrictions on my coverage?**

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** CCA Medicare Value requires you or your healthcare provider to get prior authorization for certain drugs. This means that you will need to get approval from CCA Medicare Value before you fill your prescriptions. If you don't get approval, CCA Medicare Value may not cover the drug.
- **Quantity Limits:** For certain drugs, CCA Medicare Value limits the amount of the drug that CCA Medicare Value will cover. For example, CCA Medicare Value provides 60 capsules per prescription for celecoxib. This may be in addition to a standard one-month or three-month supply.
- **Step Therapy:** In some cases, CCA Medicare Value requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, CCA Medicare Value may not cover Drug B unless you try Drug A first. If Drug A does not work for you, CCA Medicare Value will then cover Drug B.

CCA Medicare Value will limit coverage of blood glucose meters and test strips to the following diabetes care products:

- Abbott Products
  - FreeStyle Lite® Meter
  - FreeStyle Freedom Lite® Meter

- Precision Xtra® Meter
- Precision Xtra® Blood Glucose Test Strips
- FreeStyle Lite® Blood Glucose Test Strips \*compatible with either Lite Meter\*
- LifeScan Products
  - OneTouch Ultra2® Glucose System
  - OneTouch Ultra Mini® Meter
  - OneTouch Verio Flex® Meter
  - OneTouch Verio IQ® Meter
  - OneTouch Ultra® Test Strips
  - OneTouch Verio® Test Strips

Some restrictions may apply.

You can find out if your drug has any additional requirements or limits by looking in the tables beginning on page 1. You can also get more information by visiting our website at [ccama.org](http://ccama.org). We have posted online documents that explain our prior authorization and step therapy criteria. You may also ask us to send you a copy.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 1. You can also get more information about the restrictions applied to specific covered drugs by visiting our website. We have posted online documents that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask CCA Medicare Value to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section, “How do I request an exception to the CCA Medicare Value formulary?” for information about how to request an exception.

## **What if my drug is not on the Formulary?**

If your drug is not included in this formulary (list of covered drugs), you should first contact Member Services and ask if your drug is covered. For more information, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages. If you learn that CCA Medicare Value does not cover your drug, you have two options:

- You can ask Member Services for a list of similar drugs that are covered by CCA Medicare Value. When you receive the list, show it to your healthcare provider and ask them to prescribe a similar drug that is covered by CCA Medicare Value.
- You can ask CCA Medicare Value to make an exception and cover your drug. See below for information about how to request an exception.

## How do I request an exception to the CCA Medicare Value Formulary?

You can ask CCA Medicare Value to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover a drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- You can ask us to cover a formulary drug at a lower cost-sharing level. If approved, this would lower the amount you must pay for your drug.
- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, CCA Medicare Value limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.

Generally, CCA Medicare Value will only approve your request for an exception if the alternative drugs included on the plan's formulary, the lower cost-sharing drug, or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You should contact us to ask us for an initial coverage decision for a formulary, tier, or utilization restriction exception. **When you request a formulary, tier, or utilization restriction exception you should submit a statement from your prescriber or healthcare provider supporting your request.** Generally, we must make our decision within 72 hours of getting your prescriber's supporting statement.

You can request an expedited (fast) exception if you or your healthcare provider believe that your health could be seriously harmed by waiting up to 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we get a supporting statement from your provider or other prescriber.

## **What do I do before I can talk to my healthcare provider about changing my drugs or requesting an exception?**

As a new or continuing member in our plan you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your provider to decide if you should switch to an appropriate drug that we cover or request a formulary exception so that we will cover the drug you take. While you talk to your provider to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary or if your ability to get your drugs is limited, we will cover a temporary 31-day supply. If your prescription is written for fewer days, we'll allow refills to provide up to a maximum 31-day supply of medication. After your first 31-day supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility and you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug while you pursue a formulary exception.

We will provide an emergency supply of at least 31 days (unless the prescription is written for fewer days) for all non-formulary medications including those that may have step therapy or prior authorization requirements for unplanned level of care change. An unplanned level of care transition could be any of the following:

- a discharge or admission to a long-term care facility
- a discharge or admission to a hospital, or
- a nursing facility skilled level change.

### **For more information**

For more detailed information about your CCA Medicare Value prescription drug coverage, please review your Evidence of Coverage and other plan materials.

If you have questions about CCA Medicare Value, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

If you have general questions about Medicare prescription drug coverage, please call Medicare at 1-800-MEDICARE (1-800-633-4227) 24 hours a day/7 days a week. TTY users should call 1-877-486-2048. Or, visit <http://www.medicare.gov>.

## CCA Medicare Value Formulary

The formulary that begins on page 1 provides coverage information about the drugs covered by CCA Medicare Value. If you have trouble finding your drug in the list, turn to the Index that begins on page 110.

The first column of the chart lists the drug name. Brand-name drugs are capitalized (e.g., MYRBETRIQ) and generic drugs are listed in lower-case italics (e.g., *cephalexin*).

The information in the Requirements/Limits column tells you if CCA Medicare Value has any special requirements for coverage of your drug.

## List of Abbreviations

**EA: Each.**

**GM: Grams**

**ML: Milliliters**

**NDS: Non-Extended Day Supply.** You may be able to receive greater than a 1-month supply of most of the drugs on CCA Medicare Value Formulary via retail or mail order. Drugs noted with “NDS” are limited to a 1-month supply for both Retail and Mail Order.

**PA: Prior approval (or prior authorization).** For some drugs, you or your provider or other prescriber must get approval from CCA Medicare Value before you fill your prescription. If you don’t get approval, Commonwealth Care Alliance may not cover the drug.

**B/D: Prior Authorization Restriction for Part B vs Part D Determination:** This drug may be eligible for payment under Medicare Part B or Medicare Part D. You [or your provider] are required to get prior authorization from CCA Medicare Value to determine that this drug is covered under Medicare Part D before you fill your prescription for this drug. Without prior approval, CCA Medicare Value may not cover this drug.

**PA\_NSO: Prior Authorization Restriction for New Starts Only.** If this drug is new to you, you (or your provider) are required to get prior authorization for CCA Medicare Value before you fill your prescription for this drug. Without prior approval, CCA Medicare Value may not cover this drug.

**QL: Quantity Limit.** For some drugs, CCA Medicare Value limits the amount of a drug you can get. For example, CCA Medicare Value provides 60 tablets per 30-day prescription of ENTRESTO.

**INS: Insulins.** Insulin products at a maximum \$35 per month.

**ST: Step Therapy.** For some drugs, CCA Medicare Value requires you to do step therapy. This means you will have to try drugs in a certain order for your medical conditions. You might have to try one drug before we will cover another drug. If your healthcare provider thinks the first drug doesn’t work for you, then we will cover the second.

**ST\_NSO: Step Therapy for New Starts Only.** If this drug is new to you, you are required to first try certain drugs to treat your medical condition before we will cover another drug for that condition.

**VAC: Vaccine.** Medicare Part D vaccines covered at \$0.

## List of Drugs by Medical Condition

The drugs in this section are grouped into categories depending on the type of medical conditions they are used to treat. For example, if you have a heart condition, you should look in the category, "Cardiovascular Agents". That is where you will find drugs that treat heart conditions.

| Name of drug                                                                                                 | What the drug will cost you (tier level) | Necessary actions, restrictions, or limits on use |
