CCA One Care (Medicare-Medicaid Plan) | 2025 List of Covered Drugs (Drug List or Formulary)

Introduction

This document is called the *List of Covered Drugs* (also known as the Drug List). It tells you which prescription drugs and non-drug products are covered by CCA One Care. The *Drug List* also tells you if there are any special rules or restrictions on any drugs covered by CCA One Care. Key terms and their definitions appear in the last chapter of the *Member Handbook*.

B. Frequently Asked Questions (FAQ)

Find answers here to questions you have about this List of Covered Drugs. You can read all of the FAQ to learn more or look for a question and answer.

B1. What prescription drugs are on the *List of Covered Drugs*? (We call the *List of Covered Drugs* the “*Drug List*” for short.)

The drugs on the *List of Covered Drugs* in section D are the drugs covered by CCA One Care. These drugs are available at pharmacies within our network. A pharmacy is in our network if we have an agreement with them to work with us and provide you services. We refer to these pharmacies as “network pharmacies.”

- CCA One Care will cover all drugs on the Drug List if:
 - your doctor or other prescriber says you need them to get better or stay healthy,
 - CCA One Care agrees that the drug is medically necessary for you, **and**
 - you fill the prescription at a CCA One Care network pharmacy.
- In some cases, you have to do something before you can get a drug (refer to question B4 below).

If you have questions, please call CCA One Care at 866-610-2273 (TTY 711), 8 am to 8 pm, 7 days a week. The call is free. **For more information**, visit ccama.org.

You can also refer to an up-to-date list of drugs that we cover on our website at ccama.org or call Member Services at 866-610-2273 (TTY 711) 8 am to 8 pm, 7 days a week.

B2. Does the Drug List ever change?

Yes, and CCA One Care must follow Medicare and MassHealth rules when making changes. We may add or remove drugs on the Drug List during the year.

We may also change our rules about drugs. For example, we could:

- Decide to require or not require prior approval (PA) for a drug. (PA is permission from CCA One Care before you can get a drug.)
- Add or change the amount of a drug you can get (called quantity limits).
- Add or change step therapy restrictions on a drug. (Step therapy means you must try one drug before we will cover another drug.)

For more information on these drug rules, refer to question B4.

If you have questions, please call CCA One Care at 866-610-2273 (TTY 711), 8 am to 8 pm, 7 days a week. The call is free. **For more information**, visit ccama.org.

If you are taking a drug that was covered at the **beginning** of the year, we will generally not remove or change coverage of that drug **during the rest of the year** unless:

- a new, cheaper drug comes on the market that works as well as a drug on the *Drug List* now, **or**
- we learn that drug is not safe, **or**
- a drug is removed from the market.

Questions B3 and B6 below have more information on what happens when the *Drug List* changes.

- You can always check CCA One Care's up-to-date *Drug List* online at ccama.org.
- Updates to the Drug List are posted on the website monthly.
- You can also call Member Services to check the current Drug List at 866-610-2273 (TTY 711) 8 am to 8 pm, 7 days a week.

B3. What happens when there is a change to the *Drug List*?

Some changes to the Drug List will happen **immediately**. For example:

- **Substitutions new version of drugs.** We may immediately remove the drugs from the Drug List if we replace them with certain versions of that drug but your cost for the new drug will stay the same.

If you have questions, please call CCA One Care at 866-610-2273 (TTY 711), 8 am to 8 pm, 7 days a week. The call is free. **For more information**, visit ccama.org.

When we add a new version of a drug, we may also decide to keep the brand name drug or original biological product on the list but change its coverage rules or limits.

- We may not tell you before we make this change, but we will send you information about the specific change we made once it happens.
- We can make these changes only if the drug we are adding:
 - Is a new generic version of a brand name drug, or
 - Is a certain new biosimilar version of original biological products on the Drug List (for example, adding an interchangeable biosimilar that can be substituted for an original biological product without a new prescription).
- Some of these drug types may be new to you. For more information, refer to Section B14.
- You or your provider can ask for an exception from these changes. We will send you a notice with the steps you can take to ask for an exception. Please refer to question B10 for more information on exceptions.

If you have questions, please call CCA One Care at 866-610-2273 (TTY 711), 8 am to 8 pm, 7 days a week. The call is free. **For more information**, visit ccama.org.

- **A drug is taken off the market.** If the Food and Drug Administration (FDA) says a drug you are taking is not safe or effective or the drug's manufacturer takes a drug off the market, we may immediately take it off the Drug List. If you are taking the drug, we will send you a notice after we make the change. Your provider will issue a prescription for a new medication to replace the drug that is taken off the market.

We may make other changes that affect the drugs you take. We will tell you in advance about these other changes to the *Drug List*. These changes might happen if:

- The FDA provides new guidance or there are new clinical guidelines about a drug.
- We remove a brand name drug from the *Drug List* when adding a generic drug that is not new to the market, or
- we remove an original biological product when adding a biosimilar, or
- we change the coverage rules or limits for the brand name drug.
- When these changes happen, we will:
 - tell you at least 30 days before we make the change to the Drug List **or**

If you have questions, please call CCA One Care at 866-610-2273 (TTY 711), 8 am to 8 pm, 7 days a week. The call is free. **For more information**, visit ccama.org.

- let you know and give you a 31-day supply of the drug after you ask for a refill.

This will give you time to talk to your doctor or other prescriber. They can help you decide:

- if there is a similar drug on the *Drug List* you can take instead **or**
- whether to ask for an exception from these changes. Please refer to question B10 for more information about exceptions.

B4. Are there any restrictions or limits on drug coverage or any required actions to take to get certain drugs?

Yes, some drugs have coverage rules or have limits on the amount you can get. In some cases, you or your doctor or other prescriber must do something before you can get the drug. For example:

- **Prior authorization (PA) or approval:** For some drugs, you or your doctor or other prescriber must get PA from CCA One Care before you fill your prescription. CCA One Care may not cover the drug if you do not get approval.
- **Quantity limits:** Sometimes CCA One Care limits the amount of a drug you can get.

If you have questions, please call CCA One Care at 866-610-2273 (TTY 711), 8 am to 8 pm, 7 days a week. The call is free. For more information, visit ccama.org.

- **Step therapy:** Sometimes CCA One Care requires you to do step therapy. This means you will have to try drugs in a certain order for your medical condition. You might have to try one drug before we will cover another drug. If your provider thinks the first drug doesn't work for you, then we will cover the second.
- **Indication-based coverage:** If CCA One Care covers a drug only for some medical conditions, we clearly identify it on the Drug List along with the specific medical conditions that are covered.

You can find out if your drug has any additional requirements or limits by looking in the tables beginning in section C1. You can also get more information by visiting our website at ccama.org. We have posted online documents that explain our PA restriction and step therapy restrictions. You may also ask us to send you a copy.

You can ask for an exception from these limits. This will give you time to talk to your doctor or other prescriber. They can help you decide if there is a similar drug on the Drug List you can take instead or whether to ask for an exception. Please refer to questions B10-B12 for more information about exceptions.

If you have questions, please call CCA One Care at 866-610-2273 (TTY 711), 8 am to 8 pm, 7 days a week. The call is free. **For more information**, visit ccama.org.

B5. How will I know if the drug I want has limits or if there are required actions to take to get the drug?

The table of drugs in section C1 has a column labeled “Necessary actions, restrictions, or limits on use.”

B6. What happens if CCA One Care changes their rules about some drugs (for example, prior authorization (PA) or approval, quantity limits, and/or step therapy restrictions)?

In some cases, we will tell you in advance if we add or change PA, quantity limits, and/or step therapy restrictions on a drug. Refer to question B3 for more information about this advance notice and situations where we may not be able to tell you in advance when our rules about drugs on the *Drug List* change.

B7. How can I find a drug on the Drug List?

There are two ways to find a drug:

- You can search alphabetically by the drug’s name,
or
- You can search by medical condition.

To search **alphabetically**, look for your drug in the Index of Covered Drugs section. You can find it in section D. Both brand-name drugs and generic drugs are listed in the Index. Next to your drug, you will see the section number where you can find coverage information. Turn to the

If you have questions, please call CCA One Care at 866-610-2273 (TTY 711), 8 am to 8 pm, 7 days a week. The call is free. For more information, visit ccama.org.

section listed in the Index and find the name of your drug in the first column of the list.

To search **by medical condition**, find the section labeled “Drugs Grouped by Medical Condition” in section C1. The drugs in this section are grouped into categories depending on the type of medical conditions they are used to treat. For example, if you have a heart condition, you should look in the category: Cardiovascular agents. That is where you will find drugs that treat heart conditions.

B8. What if the drug I want to take is not on the Drug List?

If you don’t find your drug on the *Drug List*, call Member Services at 866-610-2273 (TTY 711) 8 am to 8 pm, 7 days a week and ask about it. If you learn that CCA One Care will not cover the drug, you can do one of these things:

- Ask Member Services for a list of drugs like the one you want to take. Then show the list to your doctor or other prescriber. They can prescribe a drug on the *Drug List* that is like the one you want to take. **Or**
- You can ask the health plan to make an exception to cover your drug. Please refer to questions B10-B12 for more information about exceptions.

If you have questions, please call CCA One Care at 866-610-2273 (TTY 711), 8 am to 8 pm, 7 days a week. The call is free. **For more information**, visit ccama.org.

B9. What if I am a new CCA One Care member and can't find my drug on the Drug List or have a problem getting my drug?

We can help. We may cover a temporary 31-day supply of your drug during the first 90 days you are a member of CCA One Care. This will give you time to talk to your doctor or other prescriber. They can help you decide if there is a similar drug on the Drug List you can take instead or whether to ask for an exception.

If your prescription is written for fewer days, we will allow multiple refills to provide up to a maximum of 31 days of medication.

We will cover a 31-day supply of your drug if:

- you are taking a drug that is not on our Drug List, **or**
- health plan rules do not let you get the amount ordered by your prescriber, **or**
- the drug requires PA by CCA One Care, **or**
- you are taking a drug that is part of a step therapy restriction.

If you are taking a drug that CCA One Care does not consider to be a Part D drug, you have the right to get a one-time, 72-hour supply of the drug. You can find more

If you have questions, please call CCA One Care at 866-610-2273 (TTY 711), 8 am to 8 pm, 7 days a week. The call is free. **For more information**, visit ccama.org.

information about getting a temporary supply of a drug in Chapter 5 of your *Member Handbook*.

If you are in a nursing home or other long-term care facility and need a drug that is not on the *Drug List* or if you cannot easily get the drug you need, we can help. If you have been in the plan for more than 90 days, live in a long-term care facility, and need a supply right away:

- We will cover one 31-day supply of the drug you need (unless you have a prescription for fewer days), whether or not you are a new CCA One Care member.
- This is in addition to the temporary supply during the first 90 days you are a member of CCA One Care.

For current enrollees with level-of-care changes, we will provide an emergency supply of at least 31 days (unless the prescription is written for fewer days) for all non-formulary medications including those that may have step therapy or prior authorization requirements. An unplanned level of care transition could be any of the following:

- a discharge or admission to a long-term care facility
- a discharge or admission to a hospital, or
- a nursing facility skilled level change

If you have questions, please call CCA One Care at 866-610-2273 (TTY 711), 8 am to 8 pm, 7 days a week. The call is free. **For more information**, visit ccama.org.

B10. Can I ask for an exception to cover my drug?

Yes. You can ask CCA One Care to make an exception to cover a drug that is not on the Drug List.

You can also ask us to change the rules on your drug.

- For example, CCA One Care may limit the amount of a drug we will cover. If your drug has a limit, you can ask us to change the limit and cover more.
- Other examples: You can ask us to drop step therapy restrictions or PA requirements.

B11. How can I ask for an exception?

To ask for an exception, call Member Services. Member Services will work with you and your provider to help you ask for an exception. You can also read Chapter 9, of the *Member Handbook* to learn more about exceptions.

B12. How long does it take to get an exception?

After we get a statement from your prescriber supporting your request for an exception, we will give you a decision within 72 hours.

A member, a member's prescriber, and/or appointed representative (with written consent) can request the exception by completing the Prescription Drug Coverage Determination Request form available on our website at ccama.org. The form may be submitted by mail or fax:

If you have questions, please call CCA One Care at 866-610-2273 (TTY 711), 8 am to 8 pm, 7 days a week. The call is free. For more information, visit ccama.org.

CVS Caremark Part D Appeals and Exceptions
PO Box 52000, MC109
Phoenix, AZ 85072-2000
Fax: 855-633-7673

If you or your prescriber think your health may be harmed if you have to wait 72 hours for a decision, you can ask for an expedited exception. This is a faster decision. If your prescriber supports your request, we will give you a decision within 24 hours of getting your prescriber's supporting statement.

B13. What are generic drugs?

Generic drugs are made up of the same active ingredients as brand name drugs. They usually cost less than the brand name drug and generally work just as well. They usually don't have well-known names. Generic drugs are approved by the Food and Drug Administration (FDA). There are generic drugs available for many brand name drugs. Generic drugs usually can be substituted for brand name drugs at the pharmacy without a new prescription—depending on state laws.

CCA One Care covers both brand name drugs and generic drugs.

B14. What are original biological products and how are they related to biosimilars?

When we refer to drugs, this could mean a drug or a biological product. Biological products are drugs that are

more complex than typical drugs. Since biological products are more complex than typical drugs, instead of having a generic form, they have forms that are called biosimilars. Generally, biosimilars work just as well as the original biological product and may cost less. There are biosimilars alternatives for some original biological products. Some biosimilars are interchangeable biosimilars and, depending on state laws, may be substituted for the original biological product at the pharmacy without needing a new prescription, just like generic drugs can be substituted for brand name drugs.

For more information on drug types, refer to Chapter 5 of the *Member Handbook*.

B15. What are OTC drugs?

OTC stands for “over-the-counter”. CCA One Care covers some OTC drugs when they are written as prescriptions by your provider.

You can read the CCA One Care Drug List to find out what OTC drugs are covered.

B16. Does CCA One Care cover non-drug OTC products?

CCA One Care covers some non-drug OTC products when they are written as prescriptions by your provider.

If you have questions, please call CCA One Care at 866-610-2273 (TTY 711), 8 am to 8 pm, 7 days a week. The call is free. For more information, visit ccama.org.

Examples of non-drug OTC products include gauze pads and dressings, alcohol swabs, and certain needles/syringes.

You can read the CCA One Care Drug List to find out what non-drug OTC products are covered.

B17. Does CCA One Care cover long-term supplies of prescriptions?

- **Mail-Order Programs.** We offer a mail-order program that allows you to get up to a 90-day supply of your prescription drugs sent directly to your home. There is no copay for mail-order drugs.
- **90-Day Retail Pharmacy Programs.** Some retail pharmacies may also offer up to a 90-day supply of covered prescription drugs. There is no copay for retail pharmacy prescriptions.

B18. Can I get prescriptions delivered to my home from my local pharmacy?

Your local pharmacy may be able to deliver your prescription to your home. You can call your pharmacy to find out if they offer home delivery.

B19. What is my copay?

CCA One Care members have no copays for prescription and OTC drugs as long as the member follows the plan's

rules. If you have questions, call Member Services at 866-610-2273 (TTY 711) 8 am to 8 pm, 7 days a week.

B20. What are drug tiers?

Tiers are groups of drugs on our Drug List.

- Tier 1 drugs are preferred generic drugs.
- Tier 2 drugs are generic drugs.
- Tier 3 drugs are preferred brand/specialty drugs.
- Tier 4 drugs are non-preferred brand drugs.
- Tier 5 drugs are non-Medicare drug/OTC drugs.

All five tiers consist of both part D drugs and non-Medicare covered drugs, and/or non-Medicare covered OTC drugs.

All tiers have no copay. As a member of our plan, you pay nothing for all covered drugs no matter what tier they are in.

C.Overview of the List of Covered Drugs

The following list of covered drugs gives you information about the drugs covered by CCA One Care. If you have trouble finding your drug in the list, turn to the Index of Covered Drugs that begins in section D. The index alphabetically lists all drugs covered by CCA One Care.

The first column of the chart lists the name of the drug. Brand name drugs are capitalized (e.g., MYRBETRIQ) and

If you have questions, please call CCA One Care at 866-610-2273 (TTY 711), 8 am to 8 pm, 7 days a week. The call is free. **For more information**, visit ccama.org.

generic drugs are listed in lowercase italics (e.g., *cephalexin*).

The information in the “necessary actions, restrictions, or limits on use” column tells you if CCA One Care has any rules for covering your drug.

Note: The DP next to a drug means the drug is not a “Part D drug.” The amount you pay when you fill a prescription for this drug does not count towards your total drug costs (that is, the amount you pay does not help you qualify for catastrophic coverage).

- In addition, if you are getting Extra Help to pay for your prescriptions, you will not get any Extra Help to pay for these drugs. For more information on Extra Help, please refer to the call-out box below.

Extra Help is a Medicare program that helps people with limited incomes and resources reduce Medicare Part D prescription drug costs, such as premiums, deductibles, and copays. Extra Help is also called the “Low-Income Subsidy,” or “LIS.”

- These drugs have different rules for appeals. An appeal is a formal way of asking us to review a decision we made about your coverage and to change it if you think we made a mistake. For example, we might decide that a drug that you

want is not covered or is no longer covered by Medicare or MassHealth.

- If you or your prescriber disagrees with our decision, you can appeal.
- If you ever have a question, call Member Services at 866-610-2273 (TTY 711) 8 am to 8 pm, 7 days a week. You can also read Chapter 9 of the *Member Handbook* to learn how to appeal a decision.

C1. Drugs Grouped by Medical Condition

The drugs in this section are grouped into categories depending on the type of medical conditions they are used to treat. For example, if you have a heart condition, you should look in the category, Cardiovascular agents. That is where you will find drugs that treat heart conditions.

If you have questions, please call CCA One Care at 866-610-2273 (TTY 711), 8 am to 8 pm, 7 days a week. The call is free. **For more information**, visit ccama.org.

Here are the meanings of the codes used in the “Necessary actions, restrictions, or limits on use” column:

(g)= Only the generic version of this drug is covered. The brand name version is not covered.

M = The brand name version of this drug is in Tier 3. The generic version is in Tier 1.

EA = Each

GM = Grams

ML = Milliliters

NDS = Non-Extended Day Supply. You may be able to receive greater than a 1-month supply of most of the drugs on your Formulary via retail or mail order. Drugs noted with “NDS” are limited to a 1-month supply for both Retail and Mail Order.

PA = Prior approval (or prior authorization). For some drugs, you or your doctor or other prescriber must get approval from CCA One Care before you fill your prescription. If you don’t get approval, CCA One Care may not cover the drug.

B/D = Prior Authorization Restriction for Part B vs Part D Determination: This drug may be eligible for payment under Medicare Part B or Medicare Part D. You or your healthcare provider are required to get a prior authorization from CCA One Care to determine that this drug is covered under

If you have questions, please call CCA One Care at 866-610-2273 (TTY 711), 8 am to 8 pm, 7 days a week. The call is free. For more information, visit ccama.org.

Medicare Part D before you fill your prescription for this drug. Without prior approval, CCA may not cover this drug. PA_BVD does not apply to Medicaid Only members.

PA_NSO = Prior Authorization Restriction for New Starts Only. If this drug is new to you, you (or your healthcare provider) are required to get prior authorization for CCA One Care before you fill your prescription for this drug. Without prior approval, CCA One Care may not cover this drug. PA_NSO does not apply to Medicaid Only members.

QL = Quantity Limit. Sometimes CCA One Care limits the amount of a drug you can get.

ST = Step Therapy. Sometimes CCA One Care requires you to do step therapy. This means you will have to try drugs in a certain order for your medical conditions. You might have to try one drug before we will cover another drug. If your healthcare provider thinks the first drug doesn't work for you, then we will cover the second.

ST_NSO = Step Therapy for New Starts Only. If this drug is new to the member, you are required to first try certain drugs to treat your medical condition before we will cover another drug for that condition. ST_NSO does not apply to Medicaid Only members.

VAC = Vaccine. Medicare Part D vaccines (You pay \$0)

If you have questions, please call CCA One Care at 866-610-2273 (TTY 711), 8 am to 8 pm, 7 days a week. The call is free. For more information, visit ccama.org.
