Scope: Commonwealth Care Alliance (CCA) Product Lines: <input checked="" type="checkbox"/> <u>Senior Care Options</u> <input checked="" type="checkbox"/> <u>One Care</u>		

PAYMENT POLICY SUMMARY:

The Medicaid Drug Rebate Program was created by the Omnibus Budget Reconciliation Act of 1990 (OBRA’90) and became effective January 1, 1991. The law requires drug manufacturers to enter into an agreement with CMS to provide rebates for their drug products that are paid for by Medicaid. Outpatient Medicaid pharmacy providers have billed with National Drug Codes (“NDCs”) and requested rebates since 1991. The Medicaid Drug Rebate Program expanded the rebate requirements to physician-administered drugs.

The NDC is a universal number that identifies a drug. The NDC number consists of 11 digits in a 5-4-2 format (i.e., xxxxx-xxxx-xx). The first five digits identify the manufacturer of the drug and are assigned by the Food and Drug Administration. The remaining digits are assigned by the manufacturer and identify the specific product and package size. The NDC is found on the drug container (i.e., vial, bottle, or tube). Any NDC submitted to MassHealth for reimbursement of medication administration must be the actual NDC number on the package or container from which the medication was administered (with any necessary leading zeros applied).

REQUIRED NDC INFORMATION:

The following information will be required when submitting an NDC to CCA:

- Valid 11-digit NDC number
- NDC unit of measure (F2, GR, ML, UN)
- F2: International unit- International units will mainly be used when billing for Factor VIII, Antihemophilic Factors
- GR: Gram- Grams are usually used when ointment, cream, inhaler, or bulk powder in a jar are dispensed. This unit of measure will primarily be used in the retail pharmacy setting and not for physician-administered drug billing.
- ML: Milliliter- If a drug is supplied in vial in liquid form, bill in millimeters.
- UN: Unit- If a drug is supplied in vial in powder form and must be reconstituted before administration, bill each vial (unit/each) used.
- NDC units dispensed (must be greater than zero)

NDC INFORMATION TO BE SUBMITTED:

The NDC number, NDC units of measure, and NDC quantity must be submitted in addition to the applicable valid HCPCS or CPT code(s) and the number of HCPCS and/or CPT units. Claims are priced based on HCPCS or CPT codes and associated units of service. If the NDC does not have a specific HCPCS or CPT code assigned, please assign the appropriate miscellaneous drug code.

REIMBURSEMENT GUIDELINES:

Claims will initially deny, all charges for the HCPCS drug codes that require NDCs. Claims must be resubmitted with NDCs in order to be reimbursed. Timely filing and claim reconsideration requirements will need to be followed when resubmitting denied claims.

DISCLAIMER:

As every claim is unique, the use of this policy is neither a guarantee of payment nor a final prediction of how specific claim(s) will be adjudicated. Claims payment is subject to member eligibility and benefits on the date of service, coordination of benefits, referral/authorization and utilization management guidelines when applicable and adherence to plan policies and procedures and claims editing logic. CCA has the right to conduct audits on any provider and/or facility to ensure compliance with the guidelines stated in this payment policy. If such an audit determines that your office/facility did not comply with this payment policy, CCA has the right to expect your office/facility to refund all payments related to non-compliance.
