Section 1 – Introduction

This directory provides a list of Senior Care Options Program’s network providers. To get detailed information about your health care coverage, please see your Evidence of Coverage (EOC).

You will have to choose one of our network providers who are listed in this directory to be your **Prietary Care Provider (PCP)**. The term “PCP” will be used throughout this directory. Generally, you must get your health care services from your PCP.

Each of Senior Care Options Program’s members is required to have a Primary Care Provider who is contracted with our plan. The PCP that you select may be a licensed primary care physician, a nurse practitioner, or a physician assistant. During the enrollment process, our Marketing and Outreach representative will work with you to ensure the selection of a PCP. Our Senior Care Options Program contracts with PCPs who know your community and who have developed working relationships with specialists, hospitals, community based homecare providers, and skilled nursing facilities in your area.

Your PCP, along with the other members of your Care Team, is responsible for coordinating all your medical care. Your Care Team may include your PCP, Care Manager, and/or a Geriatric Support Services Coordinator (GSSC), and others as appropriate. “Coordinating” your services includes checking or consulting with you and other plan providers about your care and how it is going. Prior authorization (approval in advance) from your Care Team is required for a certain number of services before you receive them. Your PCP/Care Team works closely with the plan to arrange for these services when necessary.

It is very important to get a prior authorization (approval in advance) before you receive services from certain providers. For a complete list of services that require prior authorization, please see Chapter 4 of your Evidence of Coverage (EOC). For more information or help, please call our Member Services Department at the number listed on the front cover of this booklet.

The “network providers” listed in this directory have agreed to provide you with your health care, vision, and dental services. You may go to any of our network providers listed in this directory; however, some services may require a prior authorization. If you have been going to one network provider, you are not required to continue to go to that same provider. In some cases, you may get covered services from non-network providers. Other physicians/providers are available in our network.

You generally must receive your care from a network provider. In most cases, care you receive from an out-of-network provider will not be covered. However, here are exceptions when care you receive from out-of-network provider will be covered:

- The plan covers emergency care or urgently needed care that you get from an out-of-network provider. For more information about this, and to see what emergency or urgently needed care means, see Chapter 3 of your Evidence of Coverage (EOC).
- If you need medical care that Medicare or MassHealth (Medicaid) requires our plan to cover and the providers in our network cannot provide this care, you can get this care

from an out-of-network provider. Your PCP/Care Team or the plan must authorize care you receive from an out-of-network provider prior to seeking care. Your PCP/Care Team works closely with the plan to arrange for these services when necessary. In this situation, we will cover these authorized services at no cost to you. If you do not get authorization for seeing an out-of-network provider in advance, you will have to pay for the service.

- Kidney dialysis services that you get at a Medicare-certified dialysis facility when you are temporarily outside the plan's service area.
- The plan covers out-of-network care in unusual circumstances. You must receive authorization for the care you receive from an out-of-network provider prior to seeking this care. In such a situation, we will cover these services at no cost to you. If you do not get authorization for out-of-network care in advance, you will be responsible for payment for the service. Some examples of unusual circumstances which may lead to out-of-network care are the following:
 - You have a unique medical condition and the services are not available from network providers.
 - Services are available in network but are not available timely as warranted by your medical condition.
 - You need to obtain a second opinion from out-of-network provider. Your PCP/Care Team will help you to arrange to receive a second opinion services from out-of-network provider.
 - Your PCP/Care Team determines that a non-network provider can best provide the service.

If you receive a bill from a non-contracting provider, please submit it to our plan for processing and determination of your liability. Please send the bill to: Commonwealth Care Alliance, Member Service Department, 30 Winter Street, Boston, MA 02108, or fax to 617-426-1311.

Emergency care can always be obtained in or out of the service area from the nearest available provider. When in the service area, you must use plan providers for urgent care. When out of the service area, urgent care may be obtained from the first available provider. You must use plan providers except in emergency or urgent care situations, for out-of-area renal dialysis or other services described above. If you obtain routine care from out-of-network providers, neither Medicare nor Senior Care Options Program will be responsible for the costs. For more information regarding medical emergency and urgent care please see your Chapter 3 of your Evidence of Coverage (EOC).
