

End of COVID-19 Federal Public Health Emergency

With the end of the COVID-19 Federal Public Health Emergency on May 11, 2023, some of the COVID-19 and telehealth flexibilities will end, unless further federal or state action occurs. This change may impact your work with our members, including service modes, location, coding, and billing of some services.

What is next:

CCA Health California is reviewing the released federal and state guidance as well as monitoring for additional changes. CCA Health California is working to develop further guidance in accordance with the upcoming changes.

What providers can do now:

Keep an eye out for further post-Federal Public Health Emergency guidance on the CCA Health California [Provider Updates page](#).

For telehealth visits and communications, ensure you are using platforms and/or equipment that are HIPAA-compliant and ensure privacy for our members.
